

GCSE SUBJECT OPTIONS GUIDANCE SHEET

PLEASE READ THE FOLLOWING VERY CAREFULLY

A CORE

All students will follow a GCSE course in English, Maths and Science (Core Science in Year 10 and Additional Science in Year 11 or just Core Science on the Vocational Course).

Students will also take PE and a Lifestyle (PSE) course which are not examined.

B

All students must also tick a box at this stage. Please either French or Asdan, whichever is your main subject at the moment.

C THE OPTIONS

The choices you make are important, so discuss them carefully with parents and teachers before arriving at your preferred subjects.

You have the opportunity to choose **three** further subjects.

You should take either Geography or History at this stage, if it is likely that you will be continuing to study French.

Please note that we do our best to accommodate your wishes but we cannot guarantee everyone 3 choices. Be prepared to be flexible and to explain your decisions.

You should think about having a balance in your timetable.

The subjects in each column are taught at the same time. Therefore you cannot take two from the same column. Note: Some students will be advised to take certain subjects.

TO DO:

1. Please ensure you have filled in your name and your form.
2. In order to have a profitable discussion of your options can you please give some ideas (in the box provided) e.g. your strengths/weaknesses, what you enjoy, any future career ideas.
3. Tick either French or ASDAN, whichever you have studied as your main subject this year.
4. Tick 1 choice in each column then 1 reserve, **labelling the reserve clearly.**

(You will only study one from each column, but choices cannot be guaranteed so you do need to include a 2nd choice!)
