

Apprentice Open Evening
Atos on the hunt for its next generation of specialists
-Apprenticeship opportunities available to join Crewe-based team-

Atos, an international leader in digital services, is set to build on its Crewe-based team by adding 8 apprentices in the coming months.

Following a successful intake of apprentices in 2018, there are several exciting opportunities available to start in September 2019 and potential applicants are being encouraged to attend the company's **Apprentice Open Evening** which is taking place in Crewe.

Date: 2nd April 2019

Time: 5.30-7pm

Location: Atos, Rail House, Gresty Road, Crewe, CW2 6EA

Our office is located just next to the Crewe railway station.

The company is recruiting for Apprentices to join their IT Customer Service apprenticeship scheme and is appealing for any school leavers in the Crewe area to consider this as the next step in their career and education.

The open evening is the perfect opportunity for those wondering what their next step after school will be. We would like to encourage people to come along and meet our business managers as well as chat with our current apprentices to understand the potential that exists through a career with Atos.

The event will enable them to find out more about the opportunities on offer and what an apprenticeship at Atos can provide. We will also be offering hints and tips to help young people with their applications, so it really is a 'must attend' event.

The evening is open to anyone from the young people themselves to parents, guardians and teachers who would like to find out more about the benefits of an apprenticeship scheme.
