

THE THOMAS ADAMS SCHOOL ~ WEM
 10 WEEK COUNTDOWN - BLOCK PLAN
 YEAR 11 – 2024

Subject: Design and Technology		
Suggested study advice: The curriculum has been broken up into chunks. We suggest you read the pages in the blue book one day, and answer the questions on the next day. Spend no more than 15-20 minutes per day either reading or answering questions. Break it up over the week. If you follow this plan you will find that you have covered the key points of the specification in order to answer an exam paper to a good standard. Please feel free to show your work to a DBT teacher for advice and feedback. Use the revision questions for NEA completion and then after the deadline, topics you are struggling with. Good luck, you only get out what you put in.
